PROFILE SUMMARY

Strategic and detail-oriented Data Science student at IIT Madras with hands-on experience in backend development, machine learning foundations, and database design. Passionate about turning technical challenges into collaborative learning experiences. Seeking an internship to apply analytical skills, backend architecture expertise, and a love for clean, validated code in real-world data projects.

EDUCATION

- SRM INSTITUTE OF SCIENCE AND TECHNOLOGYB.TECH IN COMPUTER SCIENCE AND ENGINEERING
SPECIALIZATION: BIG DATA ANALYTICS2022 - PRESENT
- IIT MADRAS ONLINE BS IN DATA SCIENCEDIPLOMA LEVEL (CURRENTLY ENROLLED)
COURSES: MACHINE LEARNING FOUNDATIONS, DATABASE MANAGEMENT SYSTEMS2023 - PRESENT

SKILLS

- C, C++,Java,Python
- HTML/CSS
- JavaScript
- React
- SpringBoot
- SQL
- Docker

LANGUAGES

- English: Fluent
- Hindi Fluent
- Malayalam: Fluent
- Japanese: Basics

PROJECTS[ONGOING]

Smart Budget Assistant (Ongoing)

- Developing a personal finance tool that helps users track expenses, categorize spending, and set savings goals.
- Integrating machine learning foundations to provide intelligent budget recommendations and detect unusual spending patterns.
- Designing a database schema to store transactions efficiently and enable fast queries for analytics.
- Building a clean backend architecture with Spring Boot and REST APIs, ensuring scalability and secure access.
- Planning a simple React-based interface for user-friendly interaction and visualization of financial insights.
